WORK EXPERIENCE

Mathematics Tutor

Self-Employed

● I have devised new and easier methods to solve questions that once posed hard to my clients.

● Used my good communication skills to make tutoring sessions seamless.

RELEVANT PROJECT EXPERIENCE

Bluetick Django API - A startup (Bluetick Linkedin)

● An app that helps workers to connect to a workspace and work efficiently with one another.

Telegram Ether bot (Github)

● A telegram chat bot with Etherscan.io functionalities

● Used Python to develop and communicate with blockchain APIs

● Used Git to track and commit changes to the project

● Demo link

VOLUNTEER EXPERIENCE

Duke of Edinburgh programme   2019 - Present

● Giving back to the society through tutoring, fundraising and environmental sanitation.
